To the Taxpayers of Lyndon

Herewith are presented summaries of the accounts and activities of the town of Lyndon for the year ending Dec. 31, 1925. In addition to the various accounts as shown by the budget the actual cost to the town of every department has been shown in connection with the summaries and such practical details of several departments as would be of general interest are given in the back of the report. It is a pleasure to report that the liabilities of the town have been decreased $10,619.71 during the year. a cut of about 50% in the town debt and that with one exception every department has kept within its appropriation and the net savings in the various departments has shown an aggregate of about $4200 under the budget. We can therefore look forward with confidence to paying off the net indebtedness of the town in the next two years without increasing our tax rate.

The tax rate recommendations for this year as balanced by the proposed budget will be 15 cents under the amount raised last year and still allows a goodly amount to be applied on the debt. Highway and school problems and expense however continue to present difficulties and will probably have to be met by a slightly higher rate this year.

It will be noted that there is a deficit in the town highway department of $535, which will have to be met this year in addition to the regular work.

The item of uncollected taxes appears at a still smaller figure than last year when it was under the average of preceeding years by a considerable amount and is a particularly good showing.

Acknowledgement is made of the extensive repairs made on the Bemis Hill road thru the contribution of the Hon. E. A. Darling, who has made possible the resurfacing on the entire road during the past two years, free of expense to the town.

In addition to the reports given herewith, complete detailed accounts, bills and vouchers are on file in the town clerk's office and open to inspection at any time.

We have examined the accounts of the town officers of Lyndon and Lyndon Town School district, found them supported by the proper vouchers and checked with the cash book. We find that the town summaries are correct as prepared for the printer, tax book accounts correct and summary of resources and liabilities as given. We approve the budget as recommended and recommend a town tax of $1.12 to defray

same. We also recommend a town highway tax of 55 cents.

COBLEIGH PUBLIC LIBRARY REPORT

To the Citizens of Lyndon:

The trustees of the Cobleigh Public Library herewith submit their annual report. Your attention is called especially to the statistical report submitted by the Librarian. You will notice that less books have been purchased than formerly. This was due to decreased appropriation made for library purposes. Your trustees earnestly recommend that an appropriation of at least $1500 be made for library expenses. This is indeed an inadequate appropriation in view of the increased cost of everything incident to the operation of the library, maintenance of property, and new books.

You are cordially invited to make as full use of the library as possible. The reading room is well supplied with newspapers and magazines while many books of reference are available for immediate use. The library contains a large number of excellent books on history, biography, travel, etc. These books are too little known to the patrons of the library and are used altogether less than they should be. We feel it is a mistake for anyone, more especially young people, to confine their reading, as so many do, entirely to fiction.

We earnestly ask your continued interest and support of

the Cobleigh Public Library as one of the real assets of the community.

Respectfully submitted.

O. D. MATHEWSON, Chairman,
